

Complexity. Cost. Communication.

HST One rises to the challenges of ASC management.

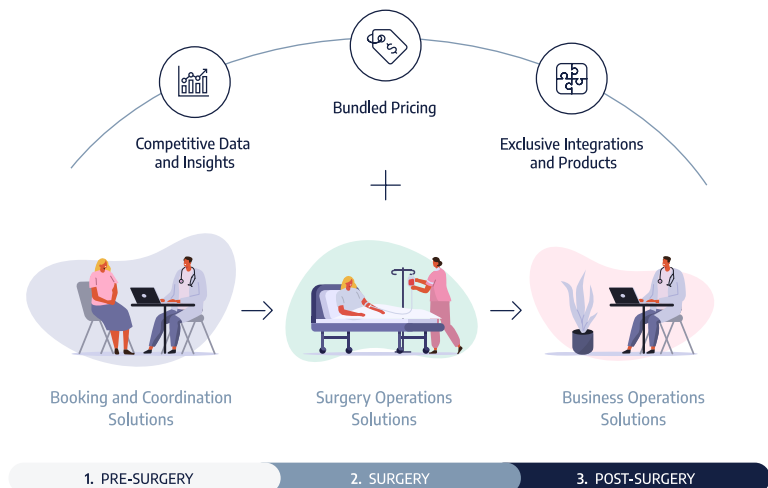

Running and growing an ASC requires the seamless management of many elements—from booking patients to arranging post-surgery recovery, and everything in between. **HST One** is the end-to-end enterprise solution with tangible benefits.

Conceived and built on deep, first-hand knowledge of how ASCs run, **HST One** delivers three key benefits:

- More cases booked
- Faster payments
- Better patient experiences

It does this by meeting the specific needs of ASCs for booking/coordination, surgery operations, and back-of-house business operations.

With an **HST One** membership, ASCs can eliminate problems that hamper productivity, increase costs, and lead to ineffective communications; problems like:

Faxes

Empty ORs

Paper

Claim denials

HST One combines our award-winning **HST Practice Management** solution with these proven ASC tools:

- Practice Scheduling
- Document Storage
- Anesthesia Assignments
- Vendor Coordination
- Premium Patient Ride Text Alerts
- Casetabs Chat Unlimited
- Surgery Boards
- Casetabs Center Analytics

HST One membership also enables you to add even more functionality—including **HST eChart** and **HST Insight**—at a discounted price.

HST One Member Benefits

What's more, when you become a member of **HST One**, you not only gain access to all the features and functions of the industry-leading enterprise platform for running ASCs, you also become a member of the **HST One** family—giving you:

- Workshop participation
- Exclusive integrations
- Competitive data and insights

The HST One Difference

Scalability

HST One allows ASCs to scale up to an EHR as needed, providing flexibility and savings.

Database Sharing

HST provides shared databases for ASCs in the same network.

Reliability

HST One is built on proven, best-in-class software for the case lifecycle.
