

Elevating your ASC software experience.

Tired of multiple systems that don't connect? With HST Home, you can:

- **Increase productivity** by having one access point for all of your HST products.
- **Improve usability and user satisfaction** by offering a more efficient, seamless experience.
- **Reduce security risk** by providing less opportunities for a password to be lost, stolen, or reused.
- **Optimize center performance** by managing applicable data analytics between products.
- **Integrate with other industry leading solutions** through our integrations marketplace.
- **Become an HST Super User** by easy access to HST Community and HST University.
- **Access an end-to-end solution** with well-integrated products at an affordable, bundled price.

HST Home serves as your launching pad for everything HST – bringing you a more elevated, premier user experience.

HST Home Features

Through HST Home, you'll have access to a **fast, simple, single-sign on solution** for you and your care team. Because we know how important data is in making decisive decision, we have integrated:

- **Customizable dashboards with analytics**, providing you with insight into your overall facility health. No more waiting to collect and analyze information – it will be available at your fingertips!
- **Easy access to HST Community and HST University**, allowing more opportunity to become an HST Super User and share online trainings with new staff.

SINGLE SIGN-ON

Improve productivity and employee satisfaction by using a single set of login credentials to access all HST products.

CUSTOMIZABLE CONFIGURATIONS

Easily create your own customizable dashboard tailored to your individual preferences and business goals.

QUICK ACTIONS

Improve efficiency by allowing your team to seamlessly jump to customizable bookmarked pages found within your HST products.

ADVANCED DATA WIDGETS

Identify deficiencies and increase profitability by accessing meaningful surgical data across all HST products.

SNAPSHOTS

Track and monitor your center's caseload data by customizing snapshots to display for different time periods at your facility.

TOOLS

Easily manage your day-to-day tasks by utilizing our customizable tool section.

SHARED SERVICES

Access HST's shared services that span across various products. All documents are managed in one place, and many more services to come.

INTEGRATIONS MARKETPLACE

Shop or browse all HST's available integrations to learn how they can connect and streamline your processes.
