

Kick your paper habit. Save money.  
Get the power of ASC collaboration.

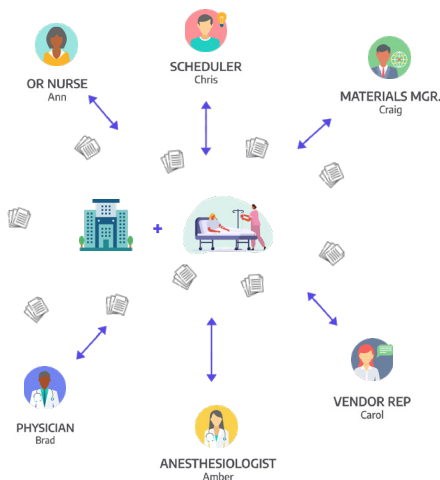

Make paper charting a thing of the past so your ASC can operate at peak performance. With HST eChart, you can:

- Enhance clinical workflow and efficiencies, saving you time and frustration
- Maximize collaboration, speed, and flexibility, improving efficiencies across the board
- Share real-time knowledge and information amongst physicians and clinical staff
- Optimize patient care and satisfaction

HST eChart is our electronic charting software inspired, designed, and built by clinicians like you. This highly mobilized solution is designed for charting on tablets, laptops, and desktops. It's highly configurable, provides you with easy, real-time access to data, and allows you to spend more time with patients and less time charting.

## The Problem

- ✗ Inefficient, slow processes
- ✗ High, unpredictable costs
- ✗ Static, inaccessible, outdated data
- ✗ Unsecure PHI records
- ✗ Incomplete paperwork
- ✗ Information silos and segmented data

## The Solution

- ✓ Optimal efficiency across all departments
- ✓ Proven ROI and increased speed to revenue
- ✓ Highly dynamic, fast, and concurrent charting
- ✓ 100% HIPAA compliance
- ✓ 100% chart completion
- ✓ Real-time communications

Schedule a demo by scanning the QR code to the right to see how HST eChart will help your practice grow.

## HST eChart Features

### LIVEEDIT™ TECHNOLOGY

Easy, concurrent charting allowing multiple users to simultaneously make updates to the same patient chart in real-time.

### E-SIGNATURE CAPABILITY

Allows for a quick and easy way to sign consents and Operative Reports.

### CLINICALLY-DESIGNED FEATURES

Uniquely tailored for the ASC setting and designed by clinical professionals, physicians, and nurses.

### CUSTOMIZABLE CONFIGURATION

BLOC™ technology allows you to chart a case much more quickly, meet the needs of your center's evolving workflow, and tailor charts to various procedure and physician requirements.

### CHART STATUS ALERTS

Timely and accurate chart completion with automated triggers for chart completions, lab reviews, and more.

### ENABLE EPRESCRIPTION FUNCTIONALITY

Easily and safely connects patient prescriptions through our partnership with DoseSpot.

### HIPAA COMPLIANCE

Secure access for providers wherever they need it, while streamlining peer reviews and accreditation.

*HST Received the Highest Overall Performance Score of 91.2 in the Latest KLAS Research Report which evaluated ASC EMRs.*
