HST Practice Management™

Seamless ASC practice management. Unmatched results.

Gone are the days that you have to deal with center inefficiencies, denied claims, and slower time to payments. With HST Practice Management, you can:

- Get paid faster and strengthen revenue
- Work on a flexible and proven platform
- Experience maximum savings and efficiencies
- Increase patient and physician satisfaction

HST Practice Management is the industry-leading, cloud-based practice management technology designed for your ASC, whether you are part of an enterprise or independent center. It comes standard with customizable configurations to address your unique organizational requirements needed to operate your ASC efficiently.

The Problem

- **Cumbersome, inefficient claims process leading to slower time to payment**
- **Manual operational and clerical data inefficiencies**
- **Inability to understand case costs and profitability**
- **Laborious inventory and supply chain management**

The Solution

- **Integrated claims solution with clearinghouse connection, getting money in your pocket sooner!**
- **Automated task management to improve workflow and efficiencies**
- **True case costing, including staff and supply costs**
- **Perpetual inventory, closed loop system**

Scheduling

HST Pathways

HST Practice Management Features

BILLING AND CODING

- **Minimize Rejections** - Automated claim scrubbing before generation.
- **Get Paid Faster** - Transmit claims and statements directly to the clearinghouse and import ERAs for both patients and payer payments directly from the clearinghouse.
- **Improve Insights into Your Revenue** - Calculate and apply contract write-offs in charge entry, providing a more accurate net revenue projection.

COLLECTION AND WORKFLOW

- **Increase Patient Satisfaction** - Provide accurate and automated Patient Estimates.
- **Reduce Errors** - Intuitive pre-and post-surgical Workflow feature.
- **Add Convenience** - Easy Collection assignment and tracking.

SURGICAL SCHEDULING

- **Reduce the Margin for Error** - Enhanced insurance verifications and preauthorization work ow from Scheduling to Pre-Op.
- **Maximize Your OR Time** - Real-time alerts on room and equipment conflicts, missing preference cards, and expired provider credentialing.

SUPPLY CHAIN MANAGEMENT

- **Ensure Profitability** - Enhance your case costing by using our built-in feature or by using one of our integrations with a leading ASC inventory management company.
- **Reduce Lost Revenue** - Manage implants through our comprehensive workflow.

INTEROPERABILITY

- HST Pathways has the largest third-party integrations available. HST Practice Management includes integrations for clearinghouses, inventory management systems, collections, and much more.
