

HST Case Coordination™

Effortlessly coordinate surgeries and communicate changes in real-time.

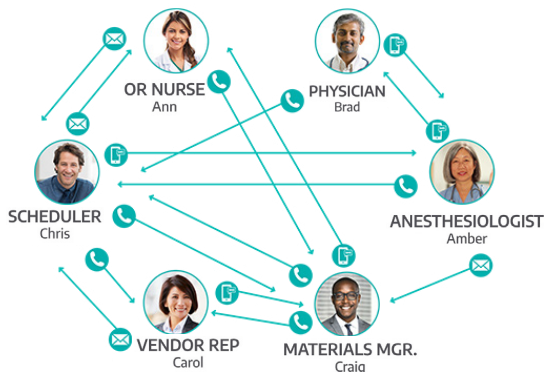

Say goodbye to faxes, missed appointments, and workflow bottlenecks. With HST Case Coordination, you can:

- **Increase case volume** by sharing available OR times and streamlining the practice booking experience.
- **Save time on data entry** by automating manual scheduling and communication tasks.
- **Improve patient safety** by keeping care teams on the same page.

HST Case Coordination (formerly Casetabs) is a cloud-based, HIPAA compliant, surgery coordination and communication app that transforms antiquated workflows by automating the scheduling experience and keeping your team, your patients, and their loved ones updated in real-time. From start to finish—HST Case Coordination will improve communication every step of the way!

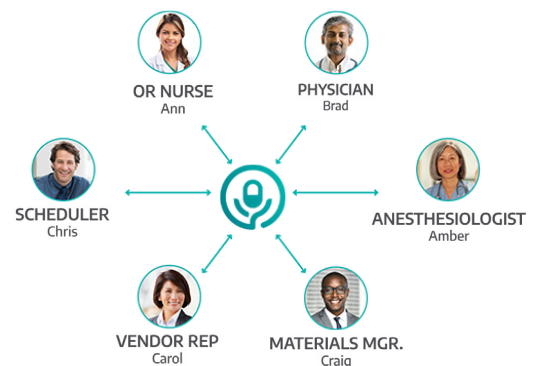

The Problem

- Fragmented case communication
- Uninformed, confused staff
- Wasted time due to manual data entry
- Delayed cases and missed appointments

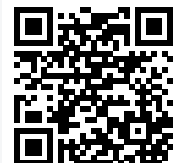

The Solution

- One accessible place = all case information
- Confident, knowledgeable staff
- Automated scheduling and communication tasks
- Streamlined, reliable booking experience

Save 205 hours per month between the front office staff and nursing staff!

Schedule a demo by scanning the QR code to the right to see how HST Case Coordination can help grow your practice.

HST Case Coordination Features

PRACTICE SCHEDULING

Open ORs increase OR utilization by maximizing visibility and reach of your available OR times, making it easy for referring practices to send more cases.

DOCUMENT STORAGE

HST Case Coordination makes sharing and storing documents simple. Practices and centers can upload from the web or mobile app. That means no more faxes and missing paper.

SEAMLESS INTEGRATION WITH HST PRACTICE MANAGEMENT

Streamline scheduling workflow with a real-time integration to reduce manual data entry and share easy case changes between systems.

CARE TEAM COORDINATION

Get everyone on the same page without actually using one. HST Case Coordination integrates with your PM/EMR system and allows you to share schedules and collaborate with your staff, and physicians like never before.

SURGERY BOARDS

Fully customizable for each department, Casetabs digital surgery boards allow your staff to know exactly what's going on throughout your center. Fully informed staff leads to better patient care and seamless patient flow.

VENDOR COORDINATION

Coordinate cases with confidence. HST Case Coordination ensures that your vendors show up at the right place, at the right time, with the right products.

SCHEDULE BROADCASTING

Gone are the days of faxing over open spots. With the Broadcast feature, your availability for appointment times will be digitally amplified to a specified group of physicians.

MOBILE APP

Award winning, HIPAA compliant access to view and manage your cases from anywhere. Connected to the Surgery Boards for real-time case status updates.

RIDE TEXT COMMUNICATION

Keep family and friends in the loop on the patient's case status with automated text alerts. From "In Pre-Op" to "In Post-Op", your patients' loved ones stay informed and at ease.

CHAT

Skip the email and coordinate cases faster with the HST Case Coordination chat feature. It is the only HIPAA-compliant chat tool that lets you communicate with your entire care team in real-time.

CHECK-IN KIOSK

Our kiosk checks your patients in seamlessly and automates your center's work ow, leading to shorter wait times and happier patients.

ANESTHESIA COORDINATION

Keep your anesthesiologists in the loop without the manual work. Share real-time case schedules with anesthesia groups and providers for seamless coordination.
